

Internship 2024 – Communication at ICN

Are you a dynamic and aspiring communicator who is passionate about environmental sustainability? Clean, the Danish water and environment cluster, invites an intern to contribute to our mission of sharing inspiring stories worldwide. If you are pursuing a bachelor's or master's degree and are eager to enhance your communication and marketing skills, this is an exceptional opportunity.

Responsibilities:

As a valued member of the Communications department, you will be the driving force behind our International Cleantech Network's communication channels. Your key responsibilities include:

- Developing engaging communication materials for member clusters (presentations, flyers, social media templates, etc.).
- Manage and create compelling content for the network's LinkedIn profile.
- Maintaining the website, updating news and success stories, and acting as the primary contact person for the agency.
- Assisting in event recruitment.
- Taking minutes at board meetings and other related tasks.

Team Collaboration:

You will be part of the ICN team, collaborating closely with project managers and assistants. Additionally, you will coordinate communication activities with the broader Clean communication team and maintain close contact with other clusters.

Qualifications:

- Fluent in both written and spoken English and Danish.
- Service-minded, proactive, outgoing, and detail-oriented.
- Strong planning and organizational skills.

What to Expect:

You can anticipate an exciting role in a dynamic, internationally-focused organization surrounded by talented colleagues. Gain valuable project management experience and an in-depth understanding of the cleantech sector, building essential networking connections. The internship, lasting approximately six months, offers up to a 37-hour working week (depending on your studies).

Benefits:

The internship is financially compensated, reflecting our commitment to recognizing and valuing your contributions.

Join us in making a positive impact on the cleantech landscape! Apply today and be a part of our journey at Clean.

How to Apply:

To apply, showcase your skills, provide availability, and share your internship expectations. Interviews will be conducted on an ongoing basis, so submit your application and CV to bej@cleancluster.dk at your earliest convenience.

* We are reviewing applications on an ongoing basis and will hire the right candidate as soon as we find them.

About Clean:

Clean envisions Danish companies as global leaders in the water and environment sector. We connect companies, utilities, knowledge institutions, and the public sector, fostering market-driven green innovation in Denmark and beyond.

About International Cleantech Network:

ICN is a network of cleantech clusters in the world's leading cleantech regions. It aims to create new business opportunities, improve competitive advantages, and generate value for companies, knowledge institutions, and local authorities across cluster regions.
